EXPERIENCE

Mimo

Product Manager
February 2018 - Present
Vienna, Austria

Mimo is an app for learning to code through interactive lessons with 250,000+ monthly active users.

- Built and executed a strategy for expanding and improving our course creation tools and process, increasing average course contributor output by 400%.
- Ran a series of a/b tests to increase day 1 retention by 20%.
- Coached designers, engineers, and curriculum owners on data analysis and project management through 1-1's.

Tip Yourself Co.

CTO, Co-founder
November 2015 - April 2017
Chicago, IL USA

Tip Yourself was a savings app with \$1,000,000+ stored on its platform. It was acquired by Earnin (125M in funding).

- Designed and implemented a better bank sign-up flow in my first three months which increased Tip Yourself's users from 200 to over 30,000.
- Slashed operating costs by 20% by taking ownership of security issues, developing an algorithm for preventing fraud, and removing a costly consultant.

Apps by Lukas

Founder
August 2014 - November 2015
Miami, FL USA

Apps by Lukas was an app development company started during college to become financially independent.

- Shipped four mobile apps for clients who were satisfied with us delivering on time and within budget.
- Built cross-functional teams to work for multiple clients simultaneously, doubling monthly profits.
